Bloom 3 Session 4

Bloom Session 4

In this session, we will learn how to create a big book using Bloom.

The data files for this session are found in the Data*Spider Big Book* subfolder

Start Bloom.

Choose a Collection

1. The main window appears. Click **Other Collections**. The **Open/Create Collection** dialog box appears.
2. Click **English Books**.

The main window reappears.

Create a Big Book

1. Click **Big Book**. Click **Make a book using this source** icon.
2. The My Book pages screen appears.
3. Enter the ***The Very Busy Spider*** in the book title textbox. Click **Change Image** in the picture frame, then click **File** and select *PicCover.jpg*. Set up metadata. Click **OK**.
4. Edit credit page by clicking **Click to edit Copyright & License**. Then enter the contents of Credits.txt into the appropriate textboxes.
5. Review the Instructions page.
6. Click **Add Page** and select **Just an Picture** and then click **Add This Page**. Insert *Pic1.jpg* in the picture frame. Click **Add Page** and select **Just Text** and then click **Add This Page**. Insert contents of *Text1.txt* in the textbox.
7. Click **Add Page** and select **Just an Picture** and then click **Add This Page**. Insert *Pic2.jpg* in the picture frame. Click **Add Page** and select **Just Text** and then click **Add This Page.** Insert contents of *Text2.txt* in the textbox.
8. Click **Add Page** and select **Just an Picture** and then click **Add This Page**. Insert *Pic3.jpg* in the picture frame. Click **Add Page** and select **Just Text** and then click **Add This Page**. Insert contents of *Text3.txt* in the textbox.
9. Click **Publish**. Select **Simple**. Click **Save PDF**.
   Navigate to the output folder and click **Save**.

Exercise

To practice creating a big book using Bloom, do the following:

1. Add the pictures and textes of the rest of the story using the given pictures and text.
2. Add metadata for the pictures.
3. Create a *pdf f*ile.
4. Display the *pdf* file
