5 Publishing in Bloom

Publishing items in Bloom is very easy.

You will have the options to publish your creations as PDF file formats, ebook formats, or upload your creation to Bloom so that it may be added to the Bloom Library collection for all people to use.

Your creation will be able to be previewed in the publication tab so you will be able to see the final product before you print, save, publish, or upload.

The PDF file format saves to your own computer.

The ePUB option is for electronic book formats for cellphone applications, kindle readers, nook readers, or any other mobile electronic device that can view text.
