

## Bloom Session 4

In this session, we will learn how to create a big book using Bloom.

The data files for this session are found in the subfolder Data\Spider Big Book.

Start Bloom.

### Choose a Collection

1. The main window appears. Click **Other Collections**.

The **Open/Create Collection** dialog box appears.

2. Click **My English Books**.

The main window reappears.

### Create a Big Book

1. Click **Big Book**. Click **Make a book using this source** icon.

2. The My Book pages screen appears.

3. Enter the **The Very Busy Spider** in the book title textbox. Click **Change Image** in the picture frame, then click **File** and select PicCover.jpg. Set up metadata. Click **OK**.

4. Edit credit page by clicking **Click to edit Copyright & License**. Then enter the contents of Credits.txt into the appropriate textboxes.

5. Review the Instructions page.

6. Click **Just a Picture**. Insert Pic1.jpg in the picture frame. Click **Just Text**. Insert contents of Text1.txt in the textbox.

7. Click **Just a Picture**. Insert Pic2.jpg in the picture frame. Click **Just Text**. Insert contents of Text2.txt in the textbox.

8. Click **Just a Picture**. Insert Pic3.jpg in the picture frame. Click **Just Text**. Insert contents of Text3.txt in the textbox.

9. Click **Publish**. Select **Simple**. Click **Save PDF**.

Navigate to the Output folder and click **Save**.

### Exercise

To practice creating a big book using Bloom, do the following:

1. Add the pictures and texts of the rest of the story.
2. Add metadata for the pictures.
3. Create a *pdf* file.
4. Display the *pdf* file
