

Adding Images

It is helpful to add images to your tutorials to help explain the steps. The files must be uploaded to the site and then inserted into the page. It is possible to upload all files at once, or upload them one at a time.

Image

Display custom formatted images. One of "fileId", "src", "attId", "id" or "

Image Source	<input type="text" value="An image in the File Galleries"/>
	<small>Choose where to get your image from</small>
File ID	<input type="text" value="811"/> 
	<small>Numeric ID of an image in a File Gallery (or list separated by comm</small>
Thumbnail	<input type="text" value="Yes"/>
	<small>at enlarges to full size when clicke</small>
Link	<input type="text" value="Yes"/>
	<small>image should link to. Not needed i</small>
Link relation	<input type="text" value="Mouseover"/>
	<small>ke shadowbox and lightbox) or ap</small>
Image height	<input type="text" value="Download"/>
	<small>Height in pixels or percent. Syntax: "100" or "100px" means 100 pi - end tiki_plugin --></small>
