#### Content:

- Start Powerpoint. Have the participants watch.
- In the **Slide** pane, you can work directly on individual slides. Dotted borders identify placeholders (placeholders: Boxes with dotted or hatch-marked borders that are part of most slide layouts. These boxes hold title and body text or objects such as charts, tables, and pictures.), where you can type text or insert pictures, charts, and other objects (object: A table, chart, graphic, equation, or other form of information. Objects created in one application, for example spreadsheets, and linked or embedded in another application are OLE objects.).

The Slides tab shows a thumbnail (thumbnail: A miniature representation of a picture.) version of each full size slide shown in the Slide pane. After you add other slides, you can click a thumbnail on the Slides tab to make the slide appear in the Slide pane. Or you can drag thumbnails to rearrange the slides in your presentation. You can also add or delete slides on the Slides tab.

In the Notes pane (notes pane: The pane in normal view in which you type notes that you want to accompany a slide. You print these notes as notes pages or have them display when you save a presentation as a Web page.), you can type notes about the current slide. You can hand out your notes to your audience or refer to your notes in Presenter view when you give your presentation.

## Challenge

Have the participants do what you did in the Content section.

## Changes:

Have the participants create their own 2- slide presentation.

The first slide should have your name as a title and a picture. The second slide should have the title, My Favorite Foods, and a bulleted list of your favorite foods.
