Installing Pt8 Resources

Installing Resources

Introduction

In this module you will learn how to install resources.

Where are we?

You have already installed Paratext 8 and registered a user.

Why is this important?

In Paratext 8, the resources are downloaded from the DBL (Digital Bible Library). Each user can download them directly, but if your Internet connection is limited, you can share the downloaded files with other users.

What are we going to do?

 Download resources from the Internet
 Install resources from a file.
