

## PA Exercises

### Phonology Assistant Exercises

Below are some exercises to do.

- 1.** Find all voiced consonants in any environment.
- 2.** Find all word-initial bilabials or labiodentals consonants.
- 3.** Find phone **m** in any environment.
- 4.** Find all occurrences of the phone **a** surrounded by consonants.
- 5.** Find all word-initial consonants that are alveolar and plosive.
- 6.** Find all nasalized vowels in any environment.
- 7.** Find all words ending with a consonant.
- 8.** Find all double vowels (e.g. ai, ia, ua, etc.) in any environment.
- 9.** Find all triple consonants (e.g. nkɸ, mpw, str, etc.) in any environment.
- 10.** Find all words containing high, back and rounded vowels.
- 11.** Create a context occurrence chart of velar consonants in word-initial, word-medial and word final position (hint: use XY chart).
- 12.** Create a co-occurrence chart of bilabials consonants followed by vowels (hint: use XY chart).
