

Paratext 7.5 Course 2

Paratext 7.5 Course 2 Description

- The **Paratext 7.5 Course 2** provides further training in how to use the Paratext software for Bible translation.
- It teaches *intermediate* and *advanced features* including **Back Translation Tracking** and also builds on what students learned in Paratext 1 about **Project Notes, Markers, and Arranging Windows**.
- See [Necessary Files](#) below for the **Course Handbook (PDF)** and **Practice Project** for the Paratext 2 Course.
