

Project Plans Training Plan

Project Plan Training Plan

Purpose (Why): To know how to setup and use a new project plan in Paratext.

Learning Objectives (What):

1. The participants will know how to create a project plan from a base plan.
2. The participants will know how to modify a project plan
3. The participants will know how to configure task settings
4. The participants will know how to assign automatic checks to stages
5. The participants will know how to assign tasks and checks to team members.
6. The participants will know how to mark individual tasks as completed.
7. The participants will know how to generate reports.

Learning Tasks (How):

[Paratext Project Plan Powerpoint](#)^[1]

Connection:

Introduction (slide 1-4)

- Discuss why people are resisting the use of the project plan.
- Discuss the benefits of using the project plan.
- Review learning objectives
- Discuss Project Plan Overview

Ref:

PPA 5.1 Introduction to Project Plans for Administrators^[2]

Content:

Project Plan - Prerequisites (slide 5-8)

- Review first things to consider
- Review basic inventories
- If you need to replace an old plan with a new plan, you will need to save a copy of your existing progress, so that you add the information to the new plan. Here are the instructions.^[3] Then you will need ^[4]to delete your existing plan^[5].
