

Scripture App Builder Day 2B

Session 2-3: Scripture App Builder

LO:

- Participants will use Audacity to record and label audio files of Bible stories for text-audio synchronization.
- Participants will build a Bible story app with text-audio synchronization.

Hook:

- Show video “Pepsi Commercial”

Book:

- Demonstrate exporting phrase list for Unmerciful Servant.
- Record it in Audacity.
- Create a label file for the recording and export it.
- Build an app with audio-text sync and test it in HTML and on mobile.

Look:

- Export the phrase list for The Lost Coin.
- Find a quiet place to record in Audacity the script for The Lost Coin.
- Create a label file for the recording and export it.
- Build an app with audio-text sync and test it in HTML and on your mobile.

Took:

- Throw a ball around, name a feature of Scripture App Builder or an app that you can build. You cannot repeat a feature.
