

Scripture App Builder Day1D

Session 5: Scripture App Builder

LO:

- Participants will work together in pairs to create new apps from Paratext, Notepad++ or Word.
- Participants will use the Bluetooth, BibleBox and AirStash to distribute their apps.

Hook:

- Use Bluetooth, BibleBox and Airstash to play a variety of videos on phones

Book:

Look:

- Have participants build 1 Scripture app, 1 Hymn app, and 1 Storybook app
- Have participants put APK files on BibleBox and Airstash and distribute via Wi-Fi

Took:

- Discuss what other ways there are to distribute Bible apps (8 ways - see Distributing apps in SAB Manuals folder) - Google Play, microSD card, Bluetooth, Wi-Fi, Web download, Email, Dropbox, LightStream/BibleBox)
