

# vimeo\_error\_display

Hi Vimeo technicians,

There seems to be a problem with Vimeo displaying subtitles in the Khmer language:

<https://vimeo.com/114043219>

Here is a screenshot:

Upon closer inspection, the problem seems to be the fact that subtitles are automatically bolded:

If you remove the bolding (manually in my browser's CSS) the text becomes readable.

ដើម្បីធ្វើស្បែកសោដៃលមានអត្ថបទ និងរូបភាព

HD

We kindly request that you fix this for Khmer language display.

Thank you!
