

Add a Big Book to a collection

Introduction

In Bloom, the term book includes books, arithmetic booklets, large books for reading in front of classes, decodable reading books, leveled reading books, and wall calendars. In this module, we will focus on making a Big Book. The Big Book can either be 8.5x11 inches or 11x17 inches. The size is helpful for reading in front of children or other new readers so that they can follow along.

Steps:

1. Click on Big Book in the template section.

2. Click "Make a book using this source."

3. Type in content and add pictures as desired.

4. Publish in desired format.
