

Bloom 3 Session 6

Bloom Session 6

In this session, we will learn how to get a create a custom page in a book.

Start Bloom.

Choose a Collection

1. The main window appears. Click **Other Collections**. The **Open/Create Collection** dialog box appears.
2. Select **English Books** collection. The main window reappears.

Create a book

1. In the **Sources for New Books** pane, click **Basic Book**.
2. Click **Make a book using this source**.
3. In the **Front Cover**, enter a title.
4. To create a custom page, click **Add Page** and select **Custom** and then click **Add This Page**. A custom page is displayed and ready to be edited.
5. Demonstrate how to create a custom page with 10 equal picture frames.
6. Click **Change Layout** when done to begin to use the page.
7. Note that a developed custom page is only available in the current book.

Exercise

1. Create a custom page that is equivalent to **Picture in Middle**.
2. Create another custom page that contains 6 textboxes and 3 picture frames.
3. Create another custom page that contains 3 pictures and 4 textboxes, one of which is a title textbox at the top of the page.
