Practice Project Description

- The ***Practice Projects*** are a ***very important*** part of the Paratext Courses.
- Almost ***all*** of the practice during each course is done in a Practice Project.

Installing Practice Projects

1. Download the necessary Practice Projects for the Course you will be going through.
    - **English Practice Project (EPP75) (updated 28 August, 2014)**
    - **English Practice Project Back Translation (EPPBT75) (updated 15, July 2014)**
2. Open Paratext.
3. Go to the ***File*** menu and choose ***Restore Project > From File...***
4. If you do not see Restore Project, do this:
    a. Hold the ***SHIFT*** key down
    b. While holding ***SHIFT***, go to the ***Window*** menu and untick ***Simplified Paratext Menus***.
    c. Click ***OK*** in the confirmation window.
    d. ***Restart*** Paratext.
    e. Go to the ***File*** menu and choose ***Restore Project > From File...***
5. Go to the ***folder*** where you saved the ***Practice Project file(s)***.
6. Choose a ***Practice Project*** to install/restore (for example: ***EPP1***).
7. Click ***Open***.
8. If you see this window:

a. click ***YES***.

b. ***Important Note: ONLY click yes for Practice Projects. Do NOT click yes for any "REAL" project.***

9. If you are using this Practice Project on multiple computers for a course, you should want to ***rename*** the project on each computer so it doesn't get mixed up with Send/Receive.

   a. Click ***New Project***.

   b. Click ***Edit***.

   c. Give it a ***good name***. You could use ***initials*** to make it easy. For example:

      i. Full Name: ***English Practice Project JP***

      ii. Short Name: ***EPP_JP***

      iii. Click ***OK***.

   d. Click ***OK***.

10. Click ***Select All Files***.

    a. Untick ***Stylesheet.***

    b. Untick ***Versification.***

11. Click ***OK***.

12. ***Repeat*** for any other Practice Projects you need to install.

13. If you had to unticked ***Simplified Paratext Menus***, please do this:

    a. Hold the ***SHIFT*** key down.

    b. While holding ***SHIFT***, go to the ***Window*** menu and tick ***Simplified Paratext Menus***.

    c. Click ***OK*** in the confirmation window.
