

Reading Multiple Versions

When you look at a particular passage from the Bible, it is helpful to be able to view the verse in more than one Bible version. For example, open “Dios Habla Hoy” to Matthew 27:4. Then, use the **Library icon**,  , to open the resource, “La Biblia de las Américas”.

Positioning Multiple Resources

To position the two resources side-by-side, select **Layouts** at the right of the toolbar, as shown here:

Note the patterns,

, at the upper-left corner of the **Layouts** window. Click on the “2 Tiles” pattern,  . Logos now displays the two resources side-by-side, as shown here:

Synchronizing Multiple Resources

The two resources can now be synchronized so that they scroll together. To set this up, click on the small triangle to the lower-right side of the book icon for “Dios, Habla Hoy”, . The following sub window opens up:

Select Link set A. Note that there is now a letter “A” in a small orange box to the lower left corner of the book icon,

This now identifies “Dios Habla Hoy” as being in Link set **A**. In the same way, put “La Biblia de las Américas” in Link set **A**. With both resources in the same Link set, you can scroll either of the two resources, and the other resource scrolls to the same reference. For example, scroll “La Biblia de las Américas” to Luke 19:40, and “Dios Habla Hoy” will scroll to the same reference. If you want, you can set even other resources to Link set **A**, and they all will scroll together.

Using Up and Down Arrows

Another way to move both resources together is by using the **up** and **down** arrows in the **locator bar** next to “Article”, **Article** ▾ ▲ ▼ | ⊗ . Pressing the **up arrow** moves to the previous article in the given resource. Pressing the **down arrow** moves to the next article. The other resources in Link set **A** will likewise move to the same location.

The screenshot shows a software interface with a top navigation bar containing icons for home, books, and search, along with menu items for Documents, Guides, and Tools. A document titled "Dios Habla Hoy" is open, with a locator bar showing "Luke 19:40". A dropdown menu is open over the "Article" label in the locator bar, showing options: Article, Book, Chapter, and Verse. The main text area displays the verse: "40 Pero Jesús les contestó: —Les digo que si estos se las piedras gritarán." followed by "41 Cuando llegó cerca de JERUSALEM, al ver la ciudad,‡ Jesús lloró por ella,‡".

The triangle to the right of **Article** lets you also choose Book, Chapter, or Verse. Then, rather than moving the given resource to the previous or next article, you can move to the previous or next Book, Chapter, or Verse.
