

Studying Hebrew and Greek Words Using the Bible Word Study Guide

The Bible Word Study Guide helps you to find information about a specific word. In this case, we will look for information on a Greek word. The same directions apply when you look for information on a Hebrew word. If you want to study an English word, see the module, “Studying English Words Using the Bible Word Study Guide”.

Open the Bible Word Study Guide by clicking on the menu, **Guides**, at the top of the Logos Bible Software application. Then select **Bible Word Study**.

As an example, assume that you want to find information on the Greek word “ἀγάπη”. This word is translated into the English word “love”. The transliteration of this Greek word is “agape”. You can study this word using the **Bible Word Study Guide**, by entering “ἀγάπη” or “g:agape” (without the quotes) into the Reference window. Then you can either press the enter key on your keyboard, or click the search arrow, , to do the search. Click on **Layouts** on the right side of the Toolbar, and choose the layout for **1 Tile** to make the **Bible Word Study** fill the whole window in the Logos Bible Software application. Here is an example of what you may see:

To search within a specific range of passages, click on **All Passages** and choose from the drop-down list, which will include ranges that you have defined. To define a custom range:

1. Click on **All Passages** and type a range in the **New reference range** field. For example, type “Matt-John” (without the quotes).
2. Type a name for the custom range in the **Title** field. For example, type “Gospels” (without the quotes). (Note: If the name matches another custom range title, a “(2)” will be added to the end of the title).
3. Click the **Save** button.
